

The Peter Principle:

“In hierarchy every employee tends to rise to his level of Incompetence”

COROLLARY 1 - The cream rises until it sours.

COROLLARY 2 – For every work in this world there is someone, somewhere that is unable to perform it. If there are sufficient promotions, that person will eventually be named.

COROLLARY 3 – A thousand kilometres trip ends with a simple step.

COROLLARY 4 – Work is accomplished by those employees who has not yet reached their level of incompetence.

COROLLARY 5 – Competence always contains the seed of incompetence.

COROLLARY 6 – Incompetence times incompetence equals incompetence.

COROLLARY 7 – When there is something worth doing ,it`s worth finding someone capable to do it.

COROLLARY 8 – In a hierarchy achievements are inversely proportional to the number of sleeps of the stairs.

COROLLARY 9 – The Peter Principle ,just like evolution ,is ruthless .

COROLLARY 10 – When na employee reaches his level of incompetence, inertia settles and the employer gets accommodated to it instead of replacing the employee.

COROLLARY 11 – Luxury brings more problems than indolence .

COROLLARY 12 – There `s a tendency for the top hierarchy position to perform common and easy tasks.

...and You ?!
Have you reached
The Peter Principle
In your
Enterprise ???
